Cookbook - Google Captcha

- Overview SaaS

Overview SaaS

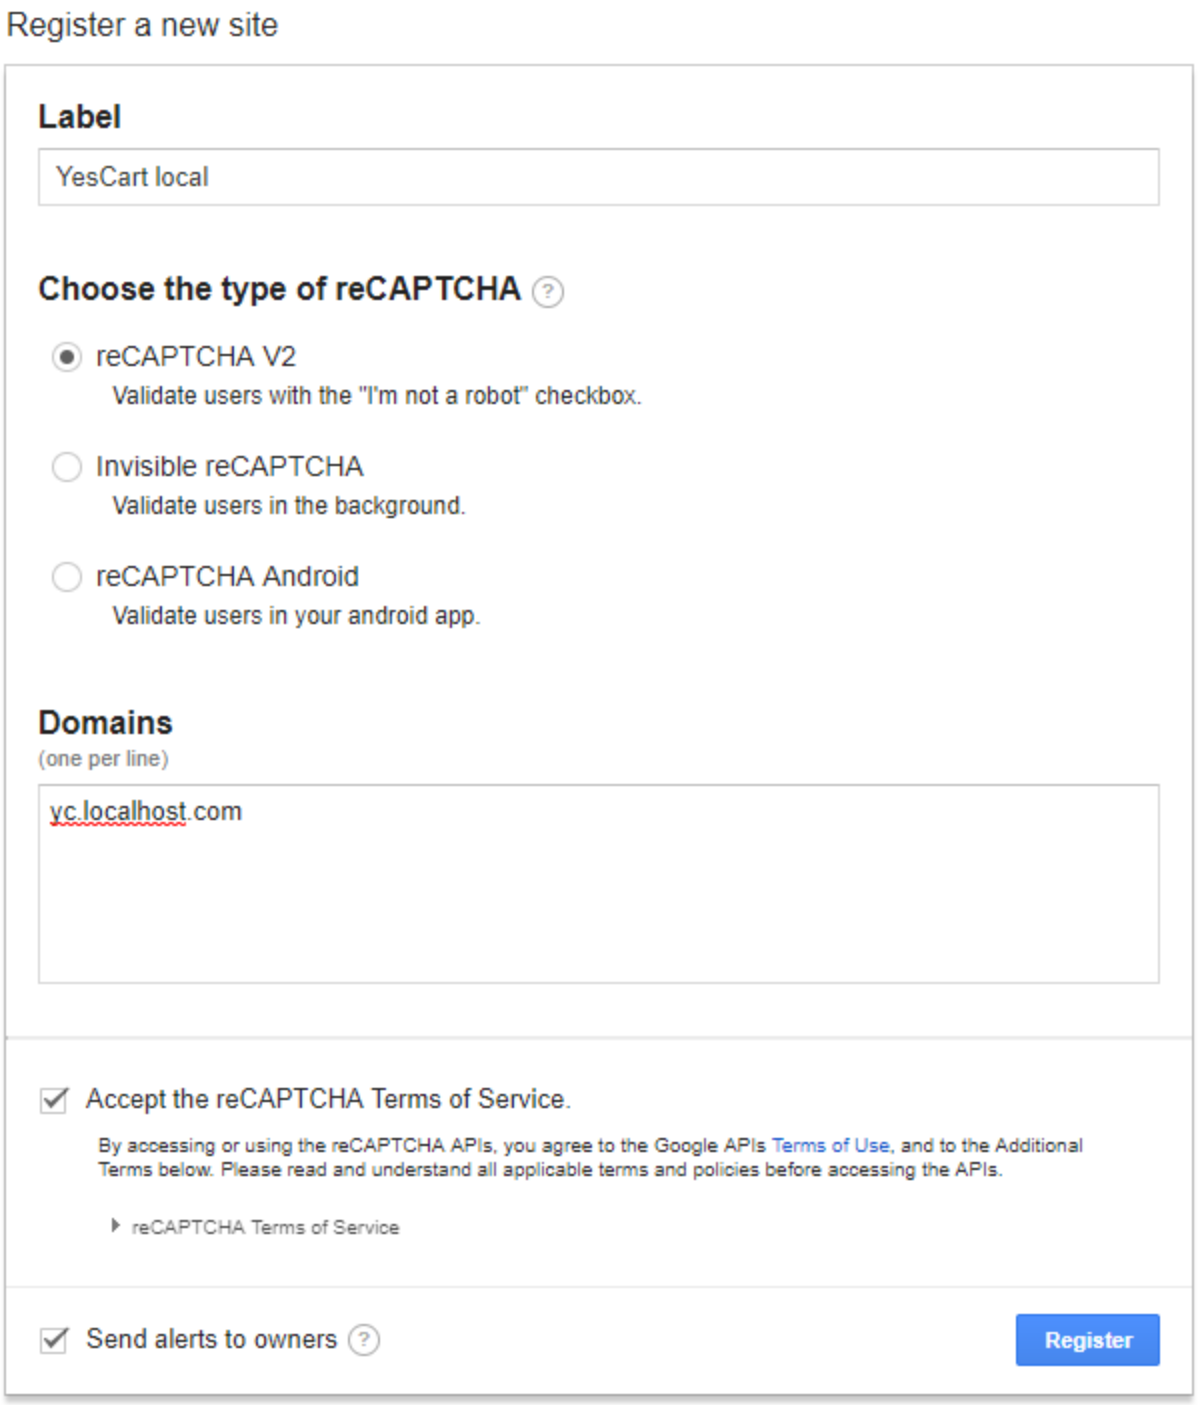
Google captcha integration allow to prevent scripted submission of form on your storefront.

Enablement of this feature is done via CMS using specific content includes. When includes are defined in CMS and have active enablement dates and enabled flag is switched on they automatically trigger additional verification process upon form submission.

Register a new site

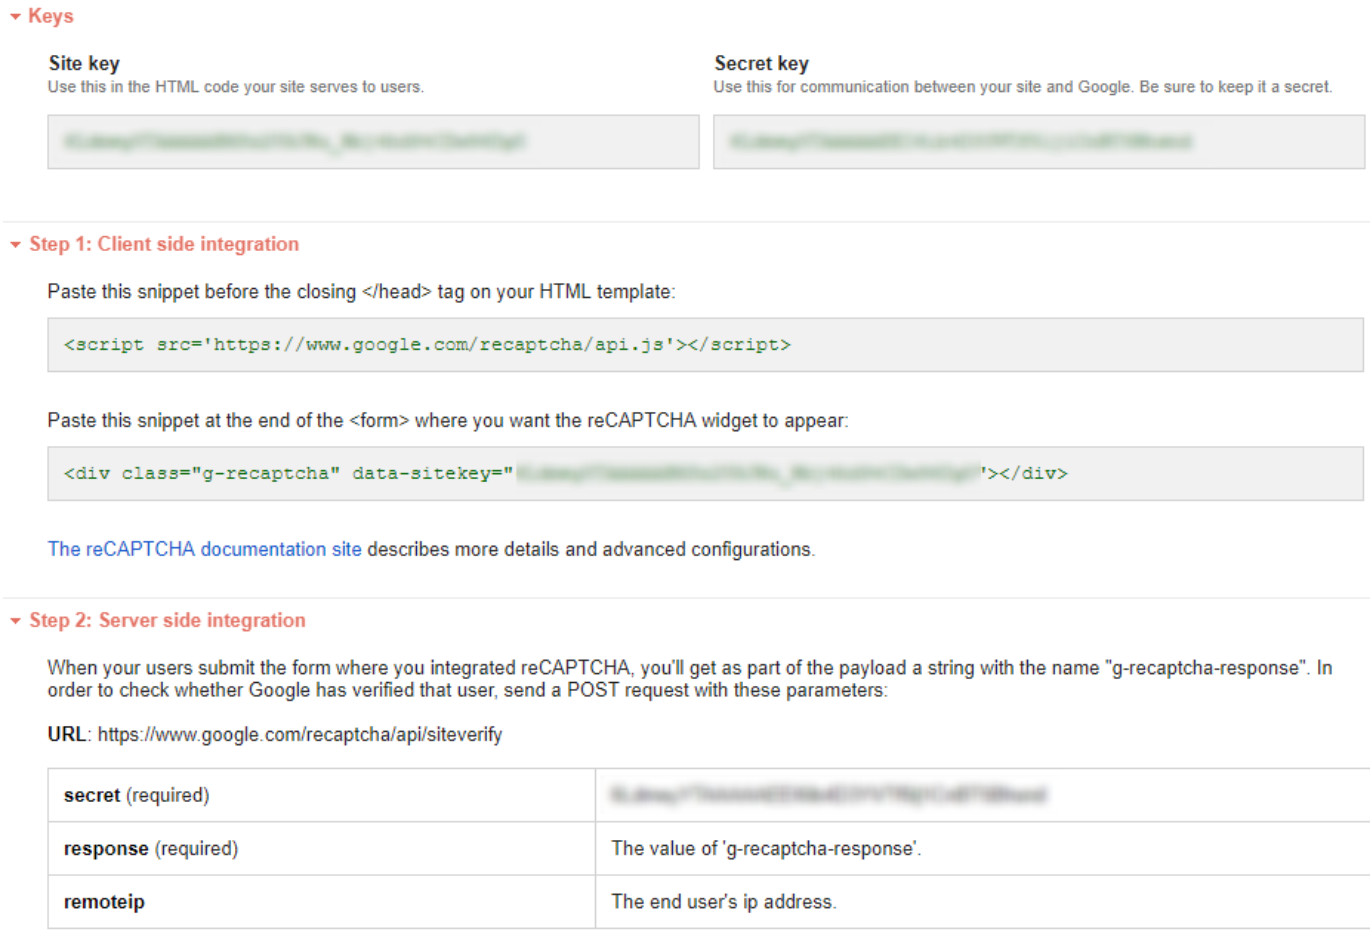
> This step requires google account.

Register a new site using form. Navigate to reCaptcha admin site



The following data will be generated:

- site key (public key)
- secret key (private key)
- client side integration form (which already contains site key)
- server side integration (POST URL and required parameters)



Create required content for reCaptcha in JAM

reCaptcha can be enabled for three different forms independently: Contact Us form, Registration form and Newsletter submit form.

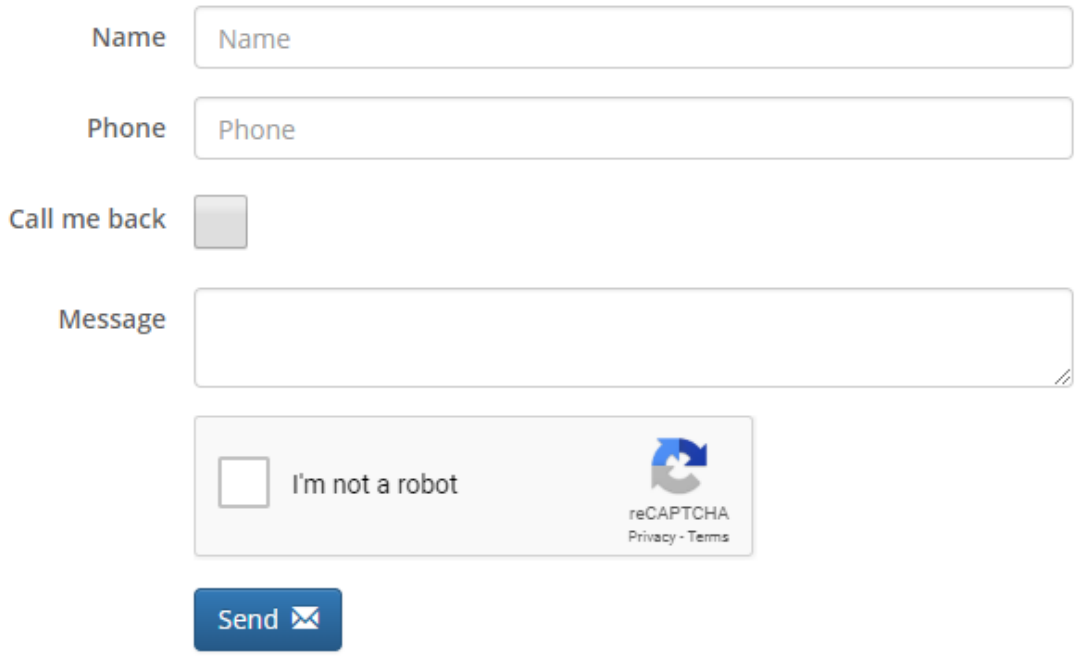
Create two content categories for each form with following contents. Replace {site key} and {secret key} placeholders with your values generated by reCaptcha

contentUri	content
contactus_form_recaptcha_public_key	<script src='https://www.google.com/recaptcha/api.js'></script </d
contactus_form_recaptcha_private_key	{secret key}
registration_form_recaptcha_public_key	<script src='https://www.google.com/recaptcha/api.js'></script </d

registration_form_recaptcha_private_key	`{secret key}`
newsletter_form_recaptcha_public_key	`<script src='https://www.google.com/recaptcha/api.js'></script` `<div class="g-recaptcha" data-sitekey="{site key}"></d`
newsletter_form_recaptcha_private_key	`{secret key}`

Example

Example of contact form component with reCaptcha enabled:



reCaptcha localization

Add 'hl' parameter to force the reCaptcha widget to render in a specific language. This parameter is optional. If not provided then client locale will be used.

```
<script src='https://www.google.com/recaptcha/api.js?hl=de'></script>
```

Full list of locales can be found here

reCaptcha example with DE localization:

Name

Phone

Call me back

Message

Ich bin kein Roboter.
