

# Demo theme

- Overview
- Demo store

## Overview

Demo theme featuring **responsive design** is built on top of **default theme** overriding the following templates to simplify demo store installation process:

| Template                             | Notes                                                                             |
|--------------------------------------|-----------------------------------------------------------------------------------|
| component/EmptyCentralView.html      | Replaces dynamic content block with a slideshow of categories                     |
| component/header/StandardHeader.html | Replaces content for top menu with hardcoded one and sets default demo store logo |

|                                      |                                                                                                    |
|--------------------------------------|----------------------------------------------------------------------------------------------------|
| component/header/CheckoutHeader.html | Sets default demo store logo                                                                       |
| component/footer/StandardFooter.html | Replaces content for footer menu with hardcoded one, sets default demo store logo and social links |
| component/footer/CheckoutFooter.html | Replaces content for footer menu with hardcoded one                                                |

## Demo store

We invite the reader to explore live demo store <http://demo.yes-cart.org/> that uses 'ycdemo' theme.

Figure 1 below shows home page screenshot of demo store.
